Maintenance Manual for Hikvision 9600 series NVR

Preventive and Cautionary Tips

Before connecting and operating your device, please be advised of the following tips:

1. The device is designed for indoor use only. Install it in a well-ventilated, dust-free environment without liquids.
2. Ensure recorder is properly secured to a rack or shelf. Major shocks or jolts to the recorder as a result of dropping it may cause damage to the sensitive electronics within the recorder.
3. The equipment shall not be exposed to dripping or splashing and that no objects filled with liquids shall be placed on the equipment such as vases.
4. No naked flame sources, such as lighted candles, should be placed on the equipment.
5. The ventilation should not be impeded by covering the ventilation openings with items, such as newspapers, table-cloths, curtains, etc. The openings shall never be blocked by placing the equipment on a bed, sofa, rug or other similar surface.
6. For certain models, ensure correct wiring of the terminals for connection to an AC mains supply.
7. For certain models, the equipment has been designed, when required, modified for connection to an IT power distribution system.
8.  identifies the battery holder itself and identifies the positioning of the cell(s) inside the battery holder.
9. + identifies the positive terminal(s) of equipment which is used with, or generates direct current. - identifies the negative terminal(s) of equipment which is used with, or generates direct current.
10. Keep a minimum 200 mm (7.87 inch) distance around the equipment for sufficient ventilation.
11. For certain models, ensure correct wiring of the terminals for connection to an AC mains supply.
12. Use only power supplies listed in the user manual or user instruction.
13. The USB port of the equipment is used for connecting to a mouse, keyboard, USB flash drive, or Wi-Fi dongle only.
